P.E.T. LANYARD

BAMBOO LANYARD

EARTH-FRIENDLY ECO-WEAVE™ LANYARDS

BAMBOO LANYARD

Due to its fast growth, bamboo is one of the earth's most sustainable resources. It is a cellulose fiber that is easily broken down in the soil... preventing environmental pollution. Made from 100% bamboo, this new lanyard is comfortable to wear, strong, durable and naturally anti-bacterial.

AND...

P.E.T. LANYARD

Made of 100% PET (Polyethylene Terephthalate) recycled plastic with recycled wide plastic hook and safety break-aways. Recycled plastic means less petroleum — a finite commodity — is consumed.

Choose from five colors made with plant base dyes or a dye-free natural material. Lanyards are available in stock unprinted or custom printed with water based inks.

EARTH-FRIENDLY BADGE HOLDERS AND STRAP CLIP

Our most popular strap clip & badge holders are now available in earth-friendly materials. They are made with PVC-DOP (Phthalates free - Dioctyl Phthlate)... a material that is fully recyclable and prevents contamination to our environment. Call for more information about products and availability.

CORNCARD™ PLASTIC CARD

CornCards™ (NatureWorks® PLA) are manufactured from corn, an abundant and renewable domestic resource. Unlike petroleum-based cards, corn-based cards can be composted and won't release toxins when burned. These credit card (CR80) size 30 mil video grade cards are virtually identical in look, feel, and quality to PVC cards.

CornCard™ is a trademark of Arthur Blank & Co.

NO-TWIST™ PRODUCTS

Our no-twist products allow the wearer to keep the front side of their ID visible at all times. This feature is available in both lanyards and badge reels that come in wide variety of colors, and can be custom-printed with your special message.

Our in-stock selection comes in both 3/8" and 5/8" widths. Choose from the Wide or Narrow No-Twist plastic hook attachment or the Wide No-Twist plastic hook with the Gripper 30® card holder made for non-slotted cards.
