

# Quick Start Guide

[www.cardpresso.com/id-all-software](http://www.cardpresso.com/id-all-software)

# How to install

Windows Version

## Step 1

Download ID-ALL for Windows.

Download the latest version at:  
[www.cardpresso.com/  
id-all-software/latest-release](http://www.cardpresso.com/id-all-software/latest-release)

## Step 2

Double-click on ID-ALL executable to run the Installation Wizard.

To proceed click the **Next** button.

## Step 3

Click **Finish** to complete the installation.

ID-ALL is now ready to use.

# How to install

macOS Version

## Step 1

Download ID-ALL for macOS.

Download the latest version at:

[www.cardpresso.com/  
id-all-software/latest-release](https://www.cardpresso.com/id-all-software/latest-release)

## Step 2

Double-click on **ID-ALL.pkg** file and the installation wizard run.

To continue with the installation, click on the **Continue** button until the **Installation Type** step, where you will have to choose where you want to install the application, before continuing with the installation.

Click **Install** to continue with the installation.

## Step 3

In the last step of the installation wizard **Summary**, if the message is **"ID-ALL has been successfully installed"**, you can close the installation wizard and proceed using ID-ALL.

# Activate your license

## How to activate

After receiving a license, you can proceed to activate your ID-ALL software.

### To activate your license

When you open **ID-ALL** software in demonstration mode, a popup is shown where you can manage your license. You must enter your activation code in the corresponding field.

At any time you can open the same popup by choosing the **Manage License** option in the ID-ALL menu.

Your software is then activated.

### Want to secure your license online?

While it is not mandatory to create an account, we always encourage you to do so, as this step is crucial to protect your license in case you lose your activation code.

# Create an account

How to create your account

1 You can register your license by creating an account and associating the license with it. You can do this in the **Manage License** popup that is shown after installation.

At any time you can open the same popup by choosing the **Manage License** in the ID-ALL Menu.

2 Click on **Create an account** and fill all the requested information

3 Insert the validation code sent to the email used to register

4 You will be asked to create a password and after that your account is activated

# Editions

Editions, features and key functionalities

## Starter Edition

### The entry-level

Basic design and print  
First steps with a card designer

#### DESIGN

- Contactless RFID encoding
- Internal and external RFID encoder support
- MIFARE® Classic® and Ultralight® (including NFC)

# Edition Upgrade

How to Upgrade

## Step 1

Go to the **ID-ALL Welcome View**

## Step 2

On **Go Further** section, choose **Upgrades**.

Then look for the edition you want to upgrade, and click in **Buy** to proceed.

Go  
further

Upgrades >

Advanced Edition

Medium-sized companies, local schools, Photo usage, Regular printing, Enrolment oriented usage

Learn More

Buy

## Step 3

Fill out the form with the required data, confirm the edition in the Buy/Upgrade dropdown and submit to us your request. You will be contacted by a distributor who will finalize the license acquisition process with you.

I'm using the software in demonstration mode.  
How I will receive my upgrade?

If you are using ID-ALL in demonstration mode and you request an upgrade, you will receive an activation code from a distributor and then just proceed with the activation of your license

# Plugins

In ID-ALL, you have access to some additional features by installing our plugins. Get to know our plugins:

## Active Directory

Connect to your Active Directory as database

Available on Expert Edition

## Multidevice use

Possibility to extend a license to use the software on simultaneous computers

Available from Standard Edition

## MIFARE® DESFire® Encoding

Advanced contactless encoding using MIFARE® high security technology

Available on Expert Edition

# Install Plugins

How to Install

## Step 1

Go to the ID-ALL Welcome View.

## Step 2

On **Go Further** section, choose **Plugins**.

Then click in **Activate** on the plugin you want to add to the software

Go  
further

## Step 3

Fill out the form with the required data, confirm the edition in the Buy/Upgrade dropdown list (some plugins require an upgrade, depending on the edition you have) and submit your request to us. You will be contacted by a distributor who will finalize the activation process for your license.

A screenshot of a software interface. At the top, there is a blue header with the Windows logo and the text "Active Directory". Below the header, the text "Active Directory Plugin (Windows Only)" is displayed in bold. Underneath, there is a grey button with the Windows logo and the word "Windows". Below that, the text "Connect to your Active Directory database with users and permissions management" is shown. At the bottom, there are two buttons: a white button with a green border labeled "Learn More" and a solid green button labeled "Activate".
